

Case Study #3

Providing Security When Trenching is Too Costly

NO TRENCHING

Since **mobilink** provides a reliable wireless video network, you no longer have to spend tens of thousands of dollars trenching! The **mobilink** wireless network can cover up to 1/2 mile area at once and can be expanded to cover miles.

WIRELESS VIDEO

Because **mobilink** tripods and masts provides a secure wireless network, covering a huge parking lot with dozens of fixed and PTZ cameras has never been more affordable.

MOBILE AND PORTABLE

mobilink tripods and masts are deployed within minutes and can easily be relocated to other high traffic entrances and to other hard to reach areas.

BATTERY POWERED

With the optional battery pack, **mobilink** can be powered for up to 72 continuous hours, depending on available options and load. Securing temporary parking lots has never been easier or more affordable.

mobilink wireless video systems provide a multitude of functionality at parking lots and ramps. With the available WiFi or mesh network hardware, they provide wireless network across the entire parking area and this eliminates the need for costly and time-consuming trenching.

Fitted with network based CCTV cameras and optical detection devices, **mobilink** tripods and masts provide on-site, portable security 24 hours a day, 7 days a week. With the IR lighting kit, **mobilink** can see in total darkness. **mobilink** tripods and masts enhance on-site security labor and offer portability and mobility for parking lots and ramps .

MOBILINK OPTIONS:
