

Case Study #4

THERMAL AND INFRARED IMAGING SAVES LIVES

MOBILE AND PORTABLE

The **mobilink** tripods and masts are deployed within minutes and can be easily relocated as the search and rescue mission logistics changes.

THERMAL IMAGING

mobilink cameras can be fitted with thermal imagers and IR lighting which helps rescuers and emergency responders locate missing persons and accident victims much faster and doing so faster, can save more lives.

BATTERY POWERED

With the optional battery pack, **mobilink** can be powered for up to 72 continuous hours, depending on available options and load.

NETWORK ACCESS

With the available WiFi and mesh network hardware, **mobilink** tripods and masts provides crime scenes and emergency sites with network access. **mobilink** video can also be accessed on web-enabled cell phones.

mobilink tripods and masts provide a multitude of functionality for any search and rescue operation. With the available WiFi or mesh network hardware, they provide a wireless network across the entire scene.

Fitted with network based CCTV cameras with video analytics, **mobilink** tripods and masts provide on-site, portable security 24 hours a day, 7 days a week. Each **mobilink** system provides an invaluable set of eyes that can even see in total darkness with the available thermal imaging and IR lighting kits.
